## Junior Engineers

As part of the Marine Atlantic team, you will participate in a variety of ongoing training programs and development opportunities to navigate your career and chart your course for success. We provide a positive and inclusive work culture that is dedicated to creating an environment which promotes employee growth, career development, and job satisfaction. Some benefits of working with Marine Atlantic include competitive salaries, defined benefit pension plan, comprehensive health benefit packages, and professional development opportunities. Come experience the pride of working with an organization with newly constructed and revitalized infrastructure that has positioned itself for the future.

Marine Atlantic is currently looking for Marine Engineering students expecting to graduate in 2022 to work as **Junior Engineers** onboard our vessels. Our vessels operate from the ports of Port aux Basques NL and North Sydney NS year- round; and Argentic NL during the summer season. These positions are permanent full-time spare and relief positions that are scheduled across our fleet and each tour based on operational requirements.

Reporting directly to the Chief Engineer and supervised by the Senior Engineer of the Watch, the Junior Engineer carries out watchkeeping duties in the Engine Room. This position must be familiar with the operation of our vessel's machinery and have a full understanding of boilers, pumping systems, refueling procedures, hydraulics, thermodynamics, refrigeration, and air conditioning. The Junior Engineer is required to assist in performing preventative maintenance and, under the direction of the Second Engineer, carry out corrective maintenance duties as assigned.

With a focus on safety and the environment, this position is required to perform or assist in all maintenance activities, show good mechanical skills and judgment, and have the ability to follow written and oral instructions.

## What qualifications do I need to be considered for this opportunity?

- Must be currently enrolled in your final year of a Marine Engineering Technology – Advanced Diploma and eligible to graduate in June 2022
